Feedback Process Of College Of Engineering Bhubaneswar

At COLLEGE OF ENGINEERING BHUBANESWAR, we prioritize continuous improvement in both academic and administrative areas by gathering valuable feedback from a diverse group including students, faculty, alumni, and employees. This systematic collection of insights contributes significantly to creating an enriching learning environment on campus.

Feedback is actively sought from various groups - students, faculty, employers, alumni, and industry experts - to gauge the academic performance and overall ambiance of the institute. This diverse input helps in enhancing various aspects of our educational offerings.

Midway through each semester, we conduct a structured feedback process with our students to identify their strengths and weaknesses. The Department Head compiles this feedback and shares it with the concerned faculty for any necessary improvements.

Faculty members also contribute by evaluating the curriculum delivery, which covers aspects like syllabus preparation, lecture quality, attendance, assessments, and the overall institute ambiance. This feedback is analyzed thoroughly to refine our teaching methodologies.

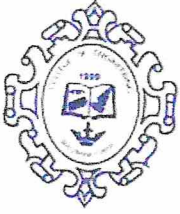

At the end of their course, we invite feedback from our graduating students to assess the overall quality of the program and the facilities provided. This helps us in maintaining and improving our standards.

Feedback is collected through both online and offline methods, ensuring comprehensive data collection. This data is meticulously analyzed, and an action report is prepared. This report not only informs necessary changes but is also communicated to relevant authorities and made available on the institutional website for transparency and accountability.

As per the collected feedback , the Analysis Report are as follows:

Following an extensive analysis of feedback gathered from various stakeholders, a comprehensive report has been compiled, and corresponding actions have been implemented. The detailed summary of the report and the actions taken are outlined below:

The thorough examination of feedback received for curriculum enhancement from diverse stakeholders is a crucial measure for enhancing the quality of our institution. The institute has a well-defined, multi-dimensional assessment process involving feedback from students, Faculties, employers, and alumni. This process helps identify curricular gaps, and subsequent actions are taken to address these gaps, incorporating measures such as add-on courses, guest lectures, workshops, seminars, and industrial visits. The overarching objective is to ensure the holistic development of students.

Action Taken

Out of 6750 feedbacks received, and 13 questions answered some of them received satisfactory responds but there are some questions that carried out the action taken, like; Here are below:-

How effectively does the existing curriculum equip students to comprehend and embody universal humanitarian values?

The institution is currently assessing its curriculum to ensure alignment with universal humanitarian values. It is engaging stakeholders for diverse perspectives, integrating values across subjects, and providing ongoing professional development for educators. Materials are being regularly reviewed and updated to foster cultural sensitivity and inclusivity. Assessment methods focused on humanitarian values are being implemented, along with the introduction of experiential learning opportunities and the establishment of community partnerships. The institution is continuously monitoring and evaluating the curriculum to adapt and improve its effectiveness in instilling universal humanitarian values in students.

Evaluate the mentoring and instruction processes at your institution to help you to progress in your cognitive , social , and emotional development.

The institution is currently assessing mentoring and instructional processes, implementing measures for cognitive development with effective teaching methods. Social development is fostered through robust mentorship programs and inclusive practices. Emotional well-being is prioritized through mentorship support. Feedback mechanisms for improvement are being established, and ongoing professional development for mentors aims to elevate effectiveness in facilitating students' progress in cognition, social skills, and emotional well-being.

How would you rank the institute's efforts to provide students with field trips, internships, and student exchanges programme?

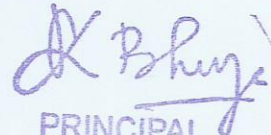

The institution is currently reassessing its efforts to provide students with field trips, internships, and student exchange programs. Actions are being taken to enhance the variety and frequency of experiential learning opportunities. Ongoing evaluations of the relevance and impact of these programs are in progress, ensuring students receive valuable insights and practical experiences. The institution is actively seeking ways to improve and expand its offerings like internships during summer and winter vacations, believing hands-on experience contribute to skill development and enhance employability to provide a well-rounded and enriching educational experience for students.

How satisfied are you with the syllabi and curriculum offered by the institute in terms of relevance and practical applicability?

Students emphasize the importance of soft/communication skills (verbal communication, teamwork, problem-solving, and leadership) for success in the job market. Actions taken include organizing workshops, seminars, and industrial visits to enhance these skills.

How would you rate the opportunities provided by the institute for out of class room learning (e.g. guest lectures, seminars, workshop, value added programmes, conferences, competitions etc.)?

Areas identified for improvement include personality development, writing skills, communication skills, and staying updated with recent technological advancements. Workshops, seminars, and certified courses were conducted to address these areas and keep students abreast of industry trends.

Is there enough volume of books and periodicals in the library?

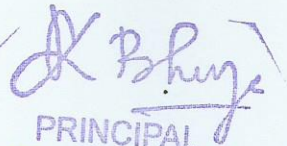

The library's inventory of books and periodicals is currently undergoing assessment to determine sufficiency. Actions are being taken to ensure an ample volume of resources to meet academic needs. Ongoing evaluations are addressing the diversity and currency of materials. The institution is actively working to enhance the library's collection by acquiring additional resources, both in print and digital formats, to provide students with comprehensive and up-to-date academic materials.

Could you please rate the food and hygiene of canteen area?

Actions are being taken to address concerns and enhance overall quality. Continuous monitoring and adjustments are in progress to meet higher hygiene standards and elevate the quality of food services. The institution is actively working towards ensuring a healthier and more satisfactory dining experience for its patrons by implementing improvements in food preparation and maintaining rigorous cleanliness standards.

How would you rank the hostel's amenities?

With ongoing efforts to enhance and refine the facilities, actions are being taken to address any identified shortcomings and improve the overall living experience. The institution is actively seeking feedback and implementing adjustments to ensure the provision of satisfactory amenities, creating a comfortable and conducive environment for residents. Continuous assessments and upgrades are in progress to meet the evolving needs and expectations of those residing in the hostel.

Actions taken

Out of 518 feedbacks received, and 10 questions answered, some of them received satisfactory responds but there are some questions that carried out the action taken, like;

In your opinion, how effective is the collaboration between the institution and industries in fostering practical knowledge and skills?

Ongoing efforts are focused on strengthening partnerships and enhancing experiential learning opportunities. The institution is actively seeking feedback to improve the alignment between academic curriculum and industry needs. Faculties suggest implementing industry-focused curricula. The institute responded by organizing faculty development programs with industry experts, with plans to continue such events in the future.

How would you rate the adequacy and transparency of the salary and emoluments provided by the institution?

The institution is actively seeking feedback and implementing measures to ensure the adequacy and transparency of salaries, fostering a more equitable and communicative compensation structure. Continuous evaluations and adjustments are in progress to address concerns and improve the overall satisfaction of employees in this regard.

COLLEGE OF ENGINEERING BHUBANESWAR

Under the aegis of the Nabadigant Educational Trust

Ref No. _____

Date: _____

How well do you believe the current syllabus supports your teaching objectives and the overall academic goals of the institute?

The institution is actively seeking feedback to make continuous improvements, ensuring the curriculum effectively serves the teaching objectives and aligns with the overarching academic goals, fostering a conducive learning environment for both educators and students.

How would you rate the efficiency of the administrative processes and support services.

Recognizing areas where faculties need assistance, the institute enhanced its support systems. This involved providing better access to teaching resources, technological tools, and research opportunities.

How well do you believe the current syllabus supports your teaching objectives and the overall academic goals of the institute?

Ongoing evaluation of the current syllabus is in progress to gauge its effectiveness in supporting teaching objectives and overall academic goals. Continuous efforts are being made to ensure alignment between the syllabus and teaching objectives, addressing any identified gaps. The institution is actively seeking feedback to enhance the curriculum, fostering an environment where teaching goals are met and contributing to the overarching academic objectives. Adjustments and improvements are being implemented to optimize the educational experience for educators and students.

Alumni Feedback Analysis Report

Date:

Year 2022

Actions taken

Out of 1596 feedbacks received, and 8 questions answered, some of them received satisfactory responds but there are some questions that carried out the action taken, like;

How satisfied were you with the amenities (like accommodation, sports facilities, etc.) provided by the institutes during your study?

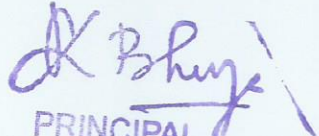

Alumni recommended the enhancement of library resources, particularly in emerging technology and industry-relevant domains. Continuous efforts are being made to gather feedback and assess the overall satisfaction levels of former students. The institution is actively seeking insights to make ongoing improvements, ensuring that amenities meet the evolving needs and expectations of alumni. Ongoing developments are actively progressing to uplift sports within the institute, including the organization of a cricket tournament.

How would your overall rating for the institute?

Based on alumni feedback resources available during their time at the institute, actions can be taken to expand or improve these aspects. This might include updating library resources, investing in new technologies, improving campus infrastructure, and expanding extracurricular and recreational facilities. By doing so, the institute not only enhanced the current student experience but also showcased its commitment to growth and continuous improvement.

Employer Feedback Analysis Report

Year 2022-23

Actions taken

Out of 134 feedbacks received, and 6 questions answered, some of them received satisfactory responds but there are some questions that carried out the action taken, like;

How well do the students align themselves to the demanding needs of the industry?

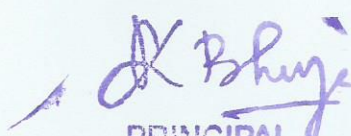

Employers suggest empowering students with more technical training and incorporating current technology in the syllabi. The institute responded by introducing add-on/certification programs aligned with the latest industry trends.

How do you rate the students Managerial/ Leadership qualities?

Continuous efforts are being made to evaluate and enhance these qualities in students, ensuring they align with industry expectations. The institution is actively working to develop and reinforce managerial and leadership skills, fostering an environment that cultivates these qualities to meet the evolving demands of the professional landscape. Integrating cutting-edge technology into the curriculum to stay abreast of industry advancements.

How well do the students have the ability to learn industrial practices fast and mold themselves into the stream?

Ongoing assessments are in progress to gauge how well students possess the ability to rapidly learn industrial practices and adapt to specific streams, as suggested by employers. Continuous efforts are being made to enhance students' adaptability and learning agility, aligning their skills with industry demands. The institution is actively responding to employer feedback, striving to ensure that students demonstrate a swift grasp of industrial practices and exhibit flexibility in molding themselves to diverse professional streams.

In summary,

The institution is deeply committed to continual refinement based on extensive feedback from diverse stakeholders, including students, employers, faculties, and alumni. Responding to this feedback, the institution is actively working to elevate students' managerial and leadership qualities to meet industry demands. Curriculum enhancements align with teaching objectives and overall academic goals. Further, ongoing initiatives, such as sports tournaments, contribute to a holistic educational experience. This collective effort ensures that the institution remains dynamic and responsive to the evolving needs of its academic community.
